From the Principal's Office - 10/14/2021

First of all I want to thank all of you for your amazing response to all of the construction that's been going on!!! A few weeks ago, a former student from COL asked our Properties Committee if there was any construction work that needed to be done. The committee informed this individual that there was some cement needing work. This former student then said that he would pay for all of the work to be done, and he would send a crew.

The whole situation came about rather quickly and within two weeks there was a cement crew here ready to begin work. Because of this generous donation, our students will now have crack-free cement near our doorways, a sidewalk to go from car drop-off to school sidewalk, and a preschool playground entrance that is NOT all muddy.

I can't tell you how proud I am of all of our students for dealing with the changes in entering, exiting, and being careful throughout this process. I can happily report that no student initials got drawn in the wet cement (a couple of teachers and a Principal were plotting this though!) Students remained safe while watching the diggers, hammers, and pourers.

Thank you again for all your patience and care for each other at COL! I pray God blesses you richly this weekend and always.
